

Dr. Antonino Laudani Joins Eurocor GmbH as Chief Operating Officer

Bengaluru, India |Bonn, Germany |October 10, 2011

Eurocor GmbH, an Opto Circuits (India) Ltd. Group company, is pleased to announce that Dr. Antonino Laudani joins as Chief Operating Officer (COO) of the Company. His last assignment was with TriVascular Inc., Santa Rosa CA, USA as Vice President and General Manager. In his new role, Dr. Laudani will be responsible for the operational set-up and over-all management of the Company. His key assignments include the management of global expansion in market share for Eurocor as well as the direction of clinical efforts, manufacturing scale up and other corporate responsibilities.

“Dr. Laudani brings executive leadership qualities, combined with extensive expertise in our industry that, with our management and team will help the Company focus on market growth”, stated Sreerangan Kurup, Managing Director, Eurocor GmbH. “We are delighted to have him join us as Chief Operating Officer of Eurocor GmbH”, Mr. Kurup continued.

Dr. Antonino Laudani brings with him close to two decades of valuable experience in management and operations. He has a wide experience in interventional vascular field and has focused both on tapping new markets and creation of new products in his past positions. Laudani has been associated with prestigious global companies including Datascope Corporation, Tyco Healthcare (now Covidien) and Johnson & Johnson Medical.

Dr. Laudani has successfully directed both sales and clinical teams in the past and, therefore, brings to Eurocor profitable and practical expertise of managing world class medical technology companies. He is recognized for his exemplary achievements, unrelenting commitment to his role and leadership qualities. His appointment continues to support the new strategic direction of the Company's growth plans.

About Eurocor GmbH:

Eurocor is a rapidly growing European Life Sciences Technology Corporation specializing in the research, development and manufacture of cardiovascular and endovascular products. Eurocor provides interventional physicians with innovative coronary stent technologies and special cardiovascular and endovascular devices, manufactured in Bonn. Products are indicated for minimally invasive cardiovascular and peripheral surgery and comply with biological and biomechanical principles to offer highly flexible, adaptable solutions. Extensive research and development, close clinician collaboration, outstanding quality standard philosophy and global scientific alliances lead to optimization of clinically effective technologies. Eurocor has designed an innovative method for balloon catheter drug delivery with high patient compliance. One heartbeat ahead™ – with innovative products such as DIOR® and FREEWAY™.

Eurocor GmbH is part of the Opto Circuits Group.
